

Memory Game

How to play:

1. Print out both pages, and use scissors to carefully cut out each of the cards on the dotted line.
 2. Mix up the cards, and place them face down on a table or the floor.
 3. Turn over cards two at a time. If they match, good job! You get to keep those cards! If they're not a match, turn them over and try again. Continue until all of the pairs have been found!
- * If playing with the cards facedown is too difficult for your little monster, you can play the same way with the cards facing up.
